

Supply Chain Engineer Intern

Have you heard of Picnic? Picnic is the first 100% online grocery store in the Netherlands. We aim for zero emissions and waste reduction. Our ultimate goal is to make online grocery shopping the best experience ever! We are currently looking for talented interns. Do you want to tackle challenging problems others have been unable to solve? Would you like to work in a highly skilled team? Are you not afraid to take responsibility and ownership? Then join us!

YOUR CHALLENGE

- Execute projects to design and improve the distribution process
- Make the supply chain capacity scalable by designing the necessary hardware & systems
- Create insight in the performance of the entire supply chain
- Create and execute projects that reduce supply chain costs
- Work and learn together with our talented team

OUR REQUIREMENTS

- Pursuing a Master's degree in Applied Mathematics, Engineering, Econometrics or equivalent
- Very good analytical skills and curious mindset
- Open personality with good communication skills
- Hands-on, nothing-is-impossible attitude, real team player, preferably knowledge of Dutch language

THE PERKS

- Inspiring, energetic and sociable team members
- Marvellous environment for development and growth
- Extremely flat organisation
- Monthly compensation of €600,00

You can apply by sending your resume to jobs@teampicnic.com (Roline Spijkervet)
